INTRODUCTION

ASV Philosophy

The Seventh-day Adventist philosophy of education is Christ-centred. We believe that Jesus is the ultimate example of 'love in action' and He wants us to do likewise. As such, Adventist Education is a vital ministry of the Seventh-day Adventist Church and is committed to sharing God's life-transforming love.

We believe that Jesus relates to us on a personal level, presenting His character as the ultimate example. His love and grace are the foundation of our relationship with Him. Therefore, Adventist Education seeks to reveal Jesus and nurture all "...to act justly, to love faithfulness, and to walk humbly with your God" (Micah 6:8 CSB).

Adventist Education strives to be transformative. It seeks to impart more than academic knowledge through the balanced development of the whole person: spiritually, academically, socially and physically. It seeks to develop a life of faith in God and respect for the dignity of all people. It nurtures thinkers rather than mere reflectors of others' thoughts (White, E. Education 1903). It promotes loving service rather than selfish ambition; and it embraces all that is true, good, and beautiful.

Our schools and early learning centres are thriving, nurturing, learning communities where Jesus is central, and where our students can become all that God intends them to be.
